android

**This document refers to the software App version: 1.0**

The Easy Counter application displays the data acquired by Easy Counter T3 in real time.

The Instruments Range and units of measurement can be selected as desired to customize the experience of your Easy Counter T3.

The application can be downloaded from the website www.ecuplus.it
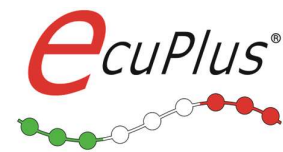

To use the App you need the activation license which in the basic version is completely free. The license is linked to the e-mail account in use on the device where the App is installed.

Obtaining the license is quick and easy:

Contact technical@ecuplus.it indicating on which email account you want to activate the App.

All updates released for bug fixes and compatibility extensions for the basic version, will be released for free.

No type of pop up or advertising banner is inserted in the application.
